CERTIFIED
Front-End
Developer

SUMMARY

- A seasoned Web Developer with **6 years** of experience specializing in building robust and responsive web applications using modern technologies like React JS, Next JS, TypeScript, and Node JS.
- Expertise includes web application design, development, backend integration, debugging, and testing.
- Skilled in developing optimized UIs with React JS for robust and seamless user experience.
- Proficient in UI/UX design, with a keen eye for design and attention to detail.
- Experienced in working with Redux architecture using complex object-oriented concepts to improve the application's performance.
- Proficient in developing versatile and reusable UI components to ensure consistency and robustness.

EXPERIENCE

React JS Developer

Innovapost

📅 11/2023 - Till date   📍 Toronto, ON

Been a key member in developing **admin dashboards** with complex components like **graphs and tables**. Extensively involved in existing application **optimization** to **improve speed and efficiency**.

- Used cutting-edge technologies including but not limited to **React JS, Redux, RTK Query, and Typescript** to create single-page web applications.
- Worked on optimizing the React application to **increase dashboard load speed by 20%**.
- Created a versatile and reusable library of UI components like buttons, dropdown menus, action menus, text fields, and React-based animations, to name a few, which **increased development speed by 15%**, In addition to my primary project responsibilities.
- Collaborated with the development team leads to suggest and implement various changes in **coding practices and standards** to make the code base more scalable and robust.
- Worked with **REST APIs** to populate data in the admin dashboards.
- Followed **ARIA** guidelines to make the application accessible.
- Took initiative in learning **React Native** and went on to successfully contribute in mobile application development under minimal supervision.

UI/ReactJS Developer

Avanade

📅 08/2022 - 11/2023   📍 Vancouver, BC

Worked on the development and optimization of dashboard for client operations.

- Involved in complete **SDLC** - Requirement Analysis, Development, System and Integration Testing.
- Worked on **REST API** integration and **performance optimization**.
- Used **Redux with Redux Thunk** to store data from multiple API endpoints.
- Worked on **React JS** for developing UI using **AG grid** for displaying tabular information and rendering for data from APIs.
- Worked closely with the development team to implement the enhancements and upgrades of the existing services.
- Became well versed with **JIRA** to keep track of outstanding bugs to reduce downtime, increase productivity, and improve communication.
- Collaborated with team in migrating old code base to latest **ECMA Script 6** features.
- Handled cross browser/platform compatibility issues on **IE, Firefox, and Safari**.

SKILLS

Front-end Web Technologies

ReactJS, NextJS, Redux, Typescript, Javascript, HTML, CSS, SASS

Back-end Technologies

NodeJS, ExpressJS, Mongoose, MongoDB, MySQL

UX/UI Design

Figma, Adobe XD, Photoshop, Illustrator

CMS

WordPress, Wix, Shopify

STRENGTHS

⚙️ **Problem Solving**
Successfully been a part of a team to identify and rectify bottlenecks and performance issues, increasing efficiency by 20%.

⚡ **Learn Fast and Be Curious**
I never feel tired of learning new things and take it as a challenge. I'm always curious about new technologies and stay up to the latest trends.

🔧 **Collaboration**
I'm a precise and clear communicator, which I believe is needed to collaborate with other team members effectively.

KEY ACHIEVEMENTS

⭐ **Build dashboard from ground up**
Developed a new admin and client dashboards from scratch which proved to be crucial part for managing customers.

⭐ **Optimized React app**
Worked on optimizing the React application to increase dashboard load speed by 20%.

⭐ **Code base update**
Collaborated with team in migrating huge old code base to latest **ECMA Script 6** features.

CERTIFICATE - COURSES COMPLETED

Meta Front-End Developer Professional Certificate

EXPERIENCE

Front-End Web Developer

Accenture

📅 02/2019 - 07/2022   📍 Bengaluru,IN

Worked as a Front-end web developer for about 2 years at Accenture, specializing in React.js. Involved in building dynamic, user-friendly web applications and acquired skills in translating complex client requirements into efficient, high-quality code.

- **Developed and maintained** responsive web applications using React.js and related technologies.
- Collaborate with designers, backend developers, and stakeholders to create seamless user experiences.
- Implemented and **optimized performance** for front-end components and interfaces.
- Learned writing **clean, maintainable, and efficient code** following best practices and coding standards.
- Conducted code reviews and provided constructive feedback to team members.
- **Troubleshooted and debugged** issues to ensure the functionality and performance of web applications.
- Stayed updated with the **latest industry trends** and technologies to continuously improve development processes.

EDUCATION

Bachelor of Technology

TKR College of Engineering Technolog

📍 Hyderabad, IN
